

What Lies Ahead: Navigating TechX and Staying Connected

Ken Klingenstein

Navigating TechX and Staying Connected

- TechX
 - CAMP
 - Themes
 - Logistics
 - Tuesday afternoon BoF's
 - ACAMP
 - Using the sages and the parsleys
- Staying Connected
 - TIER
 - Newsletters, WG, websites
 - InCommon
 - Newsletters, WG, websites
 - kjk@internet2.edu

Themes

- Campus IAM
 - Software components – Shib, Grouper, additional TIER modules
 - Business processes – communities served and services offered
 - Deployment models – Use components and integrate to the cloud
- Federation
 - InCommon
 - Internal and regional federations
 - Business processes – LOA, Identifiers, Attribute Release
- Interfederation
 - eduGAIN
 - US and international government efforts

BoF's

ACAMP

- Unconference
- Scheduling mania
- Stay connected on-line and Vote with your feet

Using the sages and the parsley

- Sages
 - Some of the originals
 - Some budding stars
 - Some spirits
- Parsley
 - Peers, especially in deployment models (e.g. making ADFS or Banner work in a bigger world)
 - YMMV

Staying Connected

- Trust and Identity – the virtuous cycle of TIER and InCommon
 - In technology
 - In governance and operations
- TIER web sites, newsletter, lists and WG
 - Active WG in API, provisioning, entities
 - <https://spaces.internet2.edu/x/GIIABg>
- InCommon web sites, lists and WG
 - Mace-dir
 - <https://spaces.internet2.edu/x/poNRBQ>
 - Active WG in Baseline Practices, Metadata management
