All Pokémon creatures and their moves are assigned certain types. Each type has several strengths and weaknesses in both attack and defense. In battle, you should use Pokémon and moves that have a type advantage over your opponent; doing so will cause much more damage than normal. Use the chart below to understand which type of Pokémon you should use in battle. Hover onto the chart to read what will happen in battles between the types you select.

In battle, your GROUND Pokémon will inflect a Normal damage to a FIGHTING enemy Pokémon. (Multiplier 1)
