

## Internet2 Technology Exchange – Splunk Boss of the SOC Competition

Monday, December 9, 2019 | 1:00pm CST – 5:00pm CST

You've heard of Boss of the SOC (BOTS) and now it's time to test your skills against the top Splunk security experts attending the Internet2 Technology Exchange! Even if you are new to Splunk or security, this event has something to offer. BOTS is the best place to see where you stand, understand how you can improve, and learn how to investigate real-world incidents in a safe, fun, and competitive environment.

**Already attended a BOTS event?** This is a brand-new question set based off Boss of the SOC version 3 dataset. Even if you attended .conf18 or a BOTS event since then, this will be a new experience!

**Not sure if BOTS is right for you?** Check out this blog to learn [everything you need to know about BOTS](#).

### Prerequisites:

- **Basic experience with Splunk.** Need to brush up before the event? See our tips below
- **Basic security investigation knowledge.** Need to brush up before the event? See our tips below
- **A laptop computer** equipped with WIFI and running a supported web browser

### Need to brush up on your Splunk or security skills?

- Check out our [Hunting With Splunk](#) blog series
- Take advantage of [Free Splunk Fundamentals 1 Training](#)
- Practice your Splunk hunting with [prior versions of BOTS](#)
- Stand up your own [BOTS environment and practice](#)

### Registration

- Registration is required and is free for campuses that subscribe to the NET+ Splunk program as a benefit of the program. For campuses not part of the NET+ Splunk program there will be a \$50 registration fee for the workshop. Space is limited to no more than 75, no walk-ins.

- To check if your campus is in the NET+ Splunk program, you can look at this webpage: <https://www.internet2.edu/products-services/cloud-services-applications/splunk/splunk-subscribers/>. If your campus is a NET+ Splunk campus, please contact [meetingregistration@internet2.edu](mailto:meetingregistration@internet2.edu) for the free workshop registration code.
- Please register with an email that you can access on the day of event
- Contestants are encouraged to register in teams of up to four for the best experience

**More questions?** Technical questions about the workshop, please contact Splunk at [BOTS@splunk.com](mailto:BOTS@splunk.com).  
[Questions around meeting registration should be directed to meetingregistration@internet2.edu.](mailto:meetingregistration@internet2.edu)
